AI and Backend Engineer with practical experience building autonomous agentic workflows, scalable Python microservices, and mobile platforms. Built LangGraph red-teaming state machines and full-stack resource distribution architectures integrating REST APIs and real-time databases.

EDUCATION

PSNA College of Engineering and Technology, Dindigul, Tamil Nadu 2023 — 2027

B.TECH. Artificial Intelligence and Data Science

- CGPA : 8.70/10 (till 6th semester)

EXPERIENCE

AI/ML Engineer, Giggso pvt ltd, Chennai May 2026 — Aug 2026

- Architected a 2-stage Gemini pipeline decoupling parsing from translation, achieving 80% extraction accuracy across 10 handwritten test samples.
- Evaluated Temporal orchestration across 2 core microservices, mapping existing Kafka event streams to modernize legacy Java workflow execution.

PROJECTS

Reshare Hub , 2025 / React Native, Python, Flask, Firebase, REST APIs

- Built a cross-platform React Native app connecting surplus donors across 3 user roles, implementing location filtering within 10 km.
- Implemented Flask REST APIs and Firebase backend services to automate donor-recipient matching across 10+ item listing categories.

Autonomous Red Teaming Agent, 2026 / LangGraph, LangChain, Python, LLM Evaluation, FastAPI

- Developed an autonomous LangGraph state machine across 6 execution nodes to automate multi-turn adversarial prompt generation and evaluation.
- Simulated multi-turn attack workflows that bypassed initial bot refusals within 2 to 6 conversational turns to extract protected configurations.

SKILLS

- **Programming Languages:** Java, Python, C++, JavaScript, TypeScript, SQL
- **AI & Machine Learning:** Deep Learning, Machine Learning, scikit-learn, PyTorch, NumPy, pandas, NLP
- **Agentic Systems & LLMs:** LangGraph, LangChain, Multi-Agent Workflows, LLM Evaluation, Prompt Engineering, RAG
- **Backend Engineering:** FastAPI, Flask, Node.js, Express.js, REST APIs, Microservices
- **Frontend & Mobile:** React Native, React.js, Tailwind CSS, HTML5, CSS3
- **Databases:** PostgreSQL, Supabase, MySQL, MongoDB, Firebase
- **Developer Tools:** Git, GitHub, Postman, VS Code, Google Antigravity

AWARDS & CERTIFICATIONS

- AWS Certified Data Engineer – Associate (2026)
- 1st Place Winner – EDII State Hackathon: Built ArtoCraphy for rural artisans (Nov 2024)
- 1st Place Winner – Code-O-Clock Hackathon: Built D-Waste among 75+ teams (Oct 2024)
- 3rd Place – HackXelerate Hackathon: Built Reshare Hub among 100+ teams (Apr 2025)
